THE THREE POINTS I MUST NOT FORGET

1. Compliance first.

No cure or outcome claims. Every claim gets medical and legal review before it runs.

2. Measure what matters.

Fix tracking first. Cost per qualified lead, not clicks. Targets are set after a one-month baseline.

3. Say what I would do, not results I have not had.

It is a plan. My edge is tracking, automation and reporting.

SCENE ORDER AND TIMING

	SCENE	TIME · TOTAL	STEPS	KEY LINE
1	Hero	0:30 · 0:30	–	Care, clarity and compliance. A plan, not past results.
2	Foundation	1:00 · 1:30	–	4.4 across 835 reviews. Three easy contact paths. Four site sections.
3	Compliance	1:30 · 3:00	3 examples	Risky to safer. Illustrative; needs medical and legal review.
4	Nine fixes	2:30 · 5:30	3 groups	Tracking first. Respond fast. One page per need. Reporting is my strength.
5	Structure	1:30 · 7:00	budget, journey	55/20/15/10 is a hypothesis. Outcomes flow back into the ads.
6	Samples	1:00 · 8:00	cards, posters	Concept drafts. Verify WHO/IARC stat and Telugu text. Not official.
7	90 days	1:00 · 9:00	–	Learn and fix. Build and test. Scale what works.
8	Measurement	0:45 · 9:45	KPIs, quote	Cost per qualified lead. Policy flags: target none. Honest advertising.
9	Contact	0:30 · 10:15	–	Lead AI Engineer, Eject Solutions. Thank you. Questions.
